1-3 & 7-17 GRANTHAM ROAD, SW9 – Window Renewals:

Dear Mrs Smithson,

In response to your recent letters about the above applications, our comments are as follows:

These properties are considered worthy of retention and improvement, so the proposed window renewals in double-glazing are supported.

We welcome that these proposals form part of more extensive retrofit works, supported by the Social Housing Retrofit Fund.

It is particularly important to include ventilation and insulation when installing double-glazing, in order to avoid condensation and mould growth problems.

Yours sincerely,

Hon. Secretary
